

Poker hand rankings

Best first. The same in Hold'em and Omaha. Grey cards don't make the hand: they're the kickers, which only break ties.

1	Royal flush Ace, king, queen, jack and ten, all of one suit. The best hand there is.	    
2	Straight flush Five cards in a row, all of one suit. The higher top card wins.	    
3	Four of a kind Four cards of the same rank. Also called quads.	    
4	Full house Three of a kind and a pair. The three decide first: jacks full of eights beats tens full of aces.	    
5	Flush Any five cards of one suit. The highest card decides, then the next.	    
6	Straight Five cards in a row, any suits. The ace can be high (A-K-Q-J-10) or low (5-4-3-2-A).	    
7	Three of a kind Three cards of the same rank. Called a set with a pair in your hand, trips with a pair on the board.	    
8	Two pair Two different pairs. The higher pair decides, then the lower, then the fifth card.	    
9	One pair Two cards of the same rank. The other three cards, the kickers, break ties.	    
10	High card No pair or better: the hand is named after its highest card.	    

Suits never break a tie. A flush beats a straight; a full house beats a flush.
